OFFICE OF THE HIGH COMMISSIONER

Contents

I.			
Aims and Scope of the 2016 Minnesota Protocol	1		
II.			
International Legal Framework	3		
A. The Right to Life	3		
B. Accountability and Remedy	4		
C. The Triggering and Scope of the Duty to Investigate	5		
D. Elements and Principles of Investigations	7		
1. Elements of the duty to investigate	7		
2. Relevant international principles and codes	9		
3. The participation and protection of family members during an investigation	9		
4. Investigative mechanisms	10		
III.			
Professional Ethics	11		
IV.			
Conduct of an Investigation	12		
A. General Principles of Investigations	12		
B. The Investigation Process	12		
1. Collecting and managing data and materials	13		
2. Important physical locations, including the death/crime scene	13		
3. Family liaison	15		
4. Understanding the victim	15		
5. Finding, interviewing and protecting witnesses	15		
6. International technical assistance	16		
7. Telecommunications and other digital evidence	17		
8. Financial issues	17		
9. Chronology of events	17		
C. Interviews and Witness Protection	18		
1. General principles	18		
2. Security and well-being	18		
3. Recording interviews	18		
D. Recovery of Human Remains	19		
1. General principles	19		
2. Labelling	19		
3. Inventory	20		
4. Intact bodies	20		
5. Skeletal remains on the surface	20		
6. Buried bodies/skeletal remains	21		
7. Considerations in the recovery of buried remains	21		
E. Identification of Dead Bodies	21		
1. General principles	21		
2. Visual recognition	21		
3. The scientific approach to identification	22		
4. Events with multiple deaths	22		
5. Conclusions about identity	23		
F. Types of Evidence and Sampling	24		
1. General principles	24		
2. Human biological evidence	24		
3. Non-biological physical evidence	25		
4. Digital evidence	26		
5. Forensic accounting	26		
6. Soil/environmental samples	26		
G. Autopsy	27		
1. General principles	27		
2. The role of radiological imaging in investigating potentially unlawful death	28		
H. Analysis of Skeletal Remains	29		

V.		VI.	
Detailed Guidelines	30	Glossary	52
A. Detailed Guidelines on Crime-Scene Investigation	30	VII.	
1. Introduction	30	Annexes	57
2. Photographic documentation	31	Annex 1. Anatomical Sketches	57
3. Measurements	32	Annex 2. Case Details Form	82
4. Note-taking/data collection and compiling an inventory	32	Annex 3. Firearm Wound Chart	84
B. Detailed Guidelines on Interviews	33	Annex 4. Stab Wound/Laceration Chart	85
1. Introduction	33	Annex 5. Adult Dental Chart	86
2. Preparation and setting	33		
3. Starting the interview	33	List of Tables	
4. Fact-finding	34	Table 1:	
5. Concluding the interview	35	Ante-Mortem and Post-Mortem Data for the Purpose of Identification	23
6. Additional guidance when interviewing a suspect	35	Table 2:	
7. The role of interpreters	35	Torture Techniques and Related Findings	47
C. Detailed Guidelines on the Excavation of Graves	36		
D. Detailed Guidelines on Autopsy	38		
1. Background and key principles	38		
2. The clothed body	39		
3. External examination	39		
4. Internal examination	42		
5. Further testing	43		
6. Concluding the cause of death	45		
7. The autopsy report	46		
8. Autopsy signs of possible torture	46		
E. Detailed Guidelines on the Analysis of Skeletal Remains	49		
1. Introduction	49		
2. Infrastructure for the analysis of skeletal remains	49		
3. Preparing skeletal remains for analysis	49		
4. Establishing a biological profile of the remains	50		
5. Remaining analysis and report	51
