# List of figures, tables and boxes

## Figures

|                 |   |    |
|-----------------|---|----|
| <b>Fig. 2.1</b> | The 10 essential public health operations   | 11 |
| <b>Fig. 2.2</b> | A public health system  | 12 |
| <b>Fig. 3.1</b> | Principle vertical forms of institutions providing public health services                       | 29 |
| <b>Fig. 4.1</b> | Typology of financing for public health services  | 60 |
| <b>Fig. 4.2</b> | Spending on public health as percentage of regional expenditure on health in Italy, 2014        | 66 |
| <b>Fig. 4.3</b> | Share of financing for public health as percentage of current health expenditure, 2009 and 2014 | 67 |
| <b>Fig. 4.4</b> | Expenditure for prevention in the Netherlands, 2005–2013  | 70 |
| <b>Fig. 4.5</b> | Public sources as percentage of expenditure on preventive care, 2015                            | 77 |

## Tables

|                  |   |    |
|------------------|---|----|
| <b>Table 3.1</b> | Main types of institutions coordinating and providing public health services  | 21 |
| <b>Table 3.2</b> | Features of national public health institutions in selected European countries  | 30 |
| <b>Table 3.3</b> | Organizational features of local public health institutions in selected European countries  | 34 |
| <b>Table 3.4</b> | Selected public health laws and their implications for organizational reforms   | 48 |
| <b>Table 4.1</b> | Information in the WHO Global Health Expenditure, Eurostat and OECD databases as of January 2018  | 62 |
| <b>Table 4.2</b> | Lowest and highest expenditure on public health in the European countries covered in the WHO Global Health Expenditure, Eurostat and OECD databases | 62 |
| <b>Table 4.3</b> | Data sources for OECD Health Statistics, 2017   | 65 |

|                  |  |     |
|------------------|--|-----|
| <b>Table 4.4</b> | Spending on "institutional prevention" in France, by type of prevention, 2014                        | 72  |
| <b>Table 4.5</b> | Estimated budget for public health in the Netherlands, 2015  | 73  |
| <b>Table 4.6</b> | Public health services budget in the Republic of Moldova by operational expenditure, 2013 and 2014   | 73  |
| <b>Table 4.7</b> | Providers of preventive care as percentage of total spending on preventive care                      | 74  |
| <b>Table 4.8</b> | Expenditure on preventive care by financing scheme, in percentage, European OECD member states, 2015 | 78  |
| <b>Table 6.1</b> | Key actors involved in quality assurance of public health services in nine European countries        | 119 |

## Boxes

|                 |  |    |
|-----------------|--|----|
| <b>Box 1.1</b>  | Key questions this volume seeks to address   | 3  |
| <b>Box 1.2</b>  | Our approach to this study   | 5  |
| <b>Box 3.1</b>  | Key questions this chapter seeks to address  | 19 |
| <b>Box 3.2</b>  | Examples of processes and institutions for setting strategic directions for public health services   | 23 |
| <b>Box 3.3</b>  | Scaling up public health services in primary health care in Slovenia                                 | 26 |
| <b>Box 3.4</b>  | Examples of health promotion and disease prevention services provided by health care institutions    | 26 |
| <b>Box 3.5</b>  | Examples of regional public health institutions  | 33 |
| <b>Box 3.6</b>  | Illustrative quotes from the interviews on centralization  | 37 |
| <b>Box 3.7</b>  | Examples of institutional mergers  | 37 |
| <b>Box 3.8</b>  | Illustrative quotes from the interviews on decentralization  | 38 |
| <b>Box 3.9</b>  | Policy tools to support local level public health services in decentralized structures               | 40 |
| <b>Box 3.10</b> | Coordination of health service provision to refugees by local health authorities in Hamburg, Germany | 43 |
| <b>Box 3.11</b> | Examples of efforts to enhance collaboration with partners in the health sector                      | 45 |
| <b>Box 3.12</b> | Examples of efforts to scale up intersectoral collaboration and partnerships                         | 45 |
| <b>Box 3.13</b> | Key messages on the organization of public health services   | 52 |
| <b>Box 4.1</b>  | Key questions this chapter seeks to address  | 60 |

|                |  |     |
|----------------|--|-----|
| <b>Box 4.2</b> | Potential reasons for discrepancies between international and national data on financing for public health in Italy  | 63  |
| <b>Box 4.3</b> | <i>Data on financing for public health in France</i>   | 64  |
| <b>Box 4.4</b> | Interview quotes illustrating funding cuts to public health services   | 68  |
| <b>Box 4.5</b> | Public sources of financing for public health in Germany   | 80  |
| <b>Box 4.6</b> | Financing sources for public health in the Republic of Moldova   | 81  |
| <b>Box 4.7</b> | <i>International sources of funds for public health in Slovenia</i>  | 82  |
| <b>Box 4.8</b> | Key messages on financing for public health  | 87  |
| <b>Box 5.1</b> | Key questions this chapter seeks to address  | 95  |
| <b>Box 5.2</b> | Who is the public health workforce?  | 98  |
| <b>Box 5.3</b> | Specialist public health training in the United Kingdom  | 101 |
| <b>Box 5.4</b> | ASPHER's European list of public health core competencies  | 105 |
| <b>Box 5.5</b> | Public Health Training Academy   | 106 |
| <b>Box 5.6</b> | Key messages on the public health workforce  | 107 |
| <b>Box 6.1</b> | Key questions this chapter seeks to address  | 114 |
| <b>Box 6.2</b> | NICE Quality Standard "Obesity in adults: prevention and lifestyle weight management programmes"   | 128 |
| <b>Box 6.3</b> | Common indicators used in European and national quality assessment frameworks, including the ECHI, OECD HCQI, Public Health Outcomes Framework in England and Open Comparisons in Sweden | 134 |
| <b>Box 6.4</b> | Public Health Outcomes Framework (PHOF) in England, 2017: domains, objectives and indicators   | 136 |
| <b>Box 6.5</b> | Standards for public health services in Italy  | 137 |
| <b>Box 6.6</b> | Key messages on quality assurance  | 139 |
| <b>Box 7.1</b> | Key messages on financing for public health  | 148 |
| <b>Box 7.2</b> | Key messages on the public health workforce  | 149 |
| <b>Box 7.3</b> | Key messages on quality assurance  | 150 |
| <b>Box 7.4</b> | Key messages on the organization of public health services   | 151 |
