Education for All

EDUCATION FOR ALL 2000-2015: ACHIEVEMENTS AND CHALLENGES

United Nations
Educational, Scientific and
Cultural Organization

Contents

Foreword	i
Acknowledgements	iii
Contents	vi
Executive Summary	xii
Overview	1
Part 1. Monitoring the progress towards education for all	44
Chapter 1 Goal 1: Early childhood care and education	45
Early childhood care and education	47
There is some progress in survival and nutrition, but care is still of poor quality	48
Many countries are on their way to a multisector approach to early childhood services	56
Pre-primary education systems and enrolment levels have expanded rapidly in some countries	58
Conclusions	73
Chapter 2 Goal 2: Universal primary education	75
Universal primary education	77
Monitoring progress	77
Substantial progress was made in user fee abolition	84
Some approaches succeeded by increasing demand	88
Supply-side interventions have helped increase primary school access	92
Reaching the marginalized is essential for universal primary education	94
Education in complex emergencies is an evolving problem	103
Conclusions	106
Chapter 3 Goal 3: Youth and adult skills	109
Youth and adult skills	111
Defining skills	111
Foundation skills: Participation in secondary education has increased	112
Inequality persists in lower secondary education	115
Transferable skills: Skills and values that matter for social progress	120
Education alternatives are needed for youth and adults who are no longer in school	124
Technical and vocational skills: Approaches are evolving	126
Continuing and adult education: Four contrasting cases	128
Direct measures of hard and soft skills are emerging in many countries	130
Conclusions	133
Chapter 4 Goal 4: Adult literacy	135
Adult literacy	137
Most countries are still far from goal 4	137
International and national surveys facilitate direct assessment of literacy	139
Comparing cohorts shows almost no real gains in adult literacy since 2000	143
Explaining limited progress in adult literacy	144
Conclusions	150

Chapter 5	Goal 5: Gender parity and equality.....	153
	Gender parity and equality	155
	Progress towards gender parity.....	155
	Promoting an enabling environment	164
	Increasing demand and supporting rights to education.....	166
	Expanding and improving school infrastructure	171
	Policies to improve boys' participation are also needed.....	173
	Equitable school and classroom environments	174
	Supporting equality in learning outcomes.....	181
	Conclusion.....	185
Chapter 6	Goal 6: Quality of education.....	187
	Quality of education	189
	It is possible to improve access and equitable learning simultaneously.....	189
	Progress in learning outcomes should be monitored.....	190
	Investing in teachers is essential.....	196
	The success of teaching and learning is linked to available resources	203
	Teaching and learning processes matter for learning.....	206
	The decentralization of education governance.....	213
	Implications of private provision for education quality	216
	Conclusion.....	217
Chapter 7	Projections, EFA Development Index and countries	
	with incomplete or missing data.....	219
	Projections, EFA Development Index and countries with incomplete or missing data	221
	What is the likelihood that countries will achieve EFA goals?.....	221
	The Education for All Development Index.....	229
	Countries with incomplete or missing data.....	234
	Conclusions.....	237
Chapter 8	Finance.....	239
	Finance.....	241
	Changing national financial commitments to EFA since Dakar	241
	International development assistance.....	261
	Other sources of international financing.....	277
	Diagnostic tools needed to assess education financing.....	279
	Conclusion.....	279
	Part 2. Post-2015.....	280
Chapter 9	Post-2015 education goal and targets: Status and prospects	281
	Post-2015 education goal and targets: Status and prospects.....	283
	Introduction.....	283
	Overview of post-2015 developments	283
	Where do the proposed education targets fall short?.....	285
	Lessons for implementing the new agenda	291
	Conclusion	300
	Annex.....	303
	National learning assessments by country and region	304
	Statistical tables	313
	Aid tables.....	397
	Glossary	408
	Abbreviations.....	411
	References	414
	Index	460

List of figures, infographics, tables and text boxes

Figures

Figure 0.1: Child malnutrition remained unacceptably high	5
Figure 0.2: Pre-primary enrolment rates are projected to have increased by three-quarters during the Dakar period	5
Figure 0.3: The pace of growth in primary net enrolment rates picked up in the early 2000s but slowed after 2007.....	6
Figure 0.4: Tens of millions of children will still not be in school by 2015.....	7
Figure 0.5: Half the out-of-school children in sub-Saharan Africa and South and West Asia, and half the out-of-school girls in the Arab States, will never enrol	7
Figure 0.6: Access to school continued to improve.....	8
Figure 0.7: Progress in attaining primary education strengthened in low income countries after 1999	9
Figure 0.8: Inequalities in primary school attainment remain very large	9
Figure 0.9: The proportion of adolescents in school increased by 12 percentage points during the Dakar period ...	11
Figure 0.10: The number of out-of-school adolescents fell in all regions except sub-Saharan Africa	11
Figure 0.11: Only two in three adolescents finish lower secondary school in low and middle income countries	12
Figure 0.12: The world has remained far from reaching literacy targets	15
Table 0.5: Key indicators for goal 5.....	15
Figure 0.13: While regions converge towards parity in primary education, wide disparity remains in lower and upper secondary education	16
Figure 0.14: Average progress masks continuing disparity in many countries.....	17
Figure 0.16: Disparity in pupil/teacher ratios across regions has remained large	19
Figure 0.15: Emphasis on learning assessments has increased across countries since 2000.....	19
Figure 0.17: Sub-Saharan Africa faced greater demographic challenges than other regions.....	22
Figure 0.18: More than half the global population now lives in urban areas.....	23
Figure 0.19: Developing country governments' revenue and expenditure have grown since 2000	23
Figure 0.20: While absolute aid volume increased, the share for education declined.....	25
Figure 0.21: Mechanisms, initiatives and campaigns at the global level were expected to mobilize EFA activities at the national level.....	28
Figure 1.1: Many countries are unlikely to reach the MDG target for reducing child mortality	49
Figure 1.2: Skilled birth attendance rates have increased in most countries	51
Figure 1.3: Immunization of children is on the rise, but wealth gaps remain	51
Figure 1.4: Nutrition has improved in most countries.....	52
Figure 1.5: In all but a few countries, the pre-primary gross enrolment ratio rose between 1999 and 2012.....	61
Figure 1.6: Children are more likely to spend longer in pre-primary school	61
Figure 1.7: Inequality often increases as more children attend early learning programmes	62
Figure 1.8: The poorest children are least likely to attend early learning programmes	62
Figure 1.9: Private provision is declining in some contexts and rising in others	66
Figure 1.10: Some countries have significantly increased their share of trained teachers in pre-primary education..	71
Figure 2.1: Significant progress has been achieved towards universal primary education.....	79
Figure 2.2: Fewer children are entering primary school late.....	80
Figure 2.3: The chances of going to school have improved in most countries.....	82
Figure 2.4: Primary school completion has broadly improved in most countries	82
Figure 2.5: Countries vary in progress on the relationship between	85
Figure 2.6: The percentage of repeaters has declined in most countries	86
Figure 2.7: The proportion of children going to private schools has increased in many countries.....	95
Figure 2.8: Children from the poorest households have made less progress in completion rates than those from slightly wealthier households.....	95
Figure 2.9: In primary education attainment among disadvantaged ethnic groups, Guatemala was more successful than Nigeria	97
Figure 2.10: Fewer children now work exclusively, but many continue to work and go to school.....	98

Figure 3.1: More primary school graduates have continued to lower secondary.....	113
Figure 3.2: Countries have expanded lower and upper secondary enrolment since Dakar.....	114
Figure 3.3: Wealth gaps in secondary school transition rates have remained in many countries.....	116
Figure 3.4: Gaps between rural and urban areas in lower secondary school attainment remain.....	117
Figure 3.5: Many adolescents continue to work either during their studies or instead of studying.....	118
Figure 3.6: Students who work for pay while in school score lower than non-working students.....	118
Figure 3.7: Knowledge about HIV and AIDS has increased among youth, especially women, in sub-Saharan Africa.....	123
Figure 3.8: Public values about women's education have changed since Dakar, but not in the same direction.....	124
Figure 3.9: While enrolments in technical and vocational secondary education increased in some countries since Dakar, in others it declined.....	126
Figure 3.10: In most countries, those completing secondary school are more likely to benefit from opportunities for adult education than those without secondary.....	129
Figure 3.11: A skills gap exists between adults whose final education was in a vocational rather than general secondary track, and the gap widened among young people in some countries.....	131
Figure 3.12: Wages are affected not only by years of schooling but also by soft skills and technical skills.....	132
Figure 4.1: Too many countries will fail to reach the target of halving their 2000 adult illiteracy rate by 2015.....	138
Figure 4.2: Many countries are projected to make substantial gains towards gender parity in adult literacy by 2015.....	139
Figure 4.3: Projected 2015 literacy rates based on direct assessments are lower than those based on household declarations.....	140
Figure 4.4: Reading abilities vary widely within countries depending on the type of occupation.....	141
Figure 4.5: Reading proficiency is higher among adults whose jobs require more reading.....	142
Figure 4.6: In Paraguay, rural adults have lower levels of reading proficiency skills, but not numeracy skills.....	142
Figure 4.7: In developing countries, the literacy skills of adults have rarely improved.....	144
Figure 5.1: Gender disparity in primary enrolment has been reduced, but wide gaps remain in several countries....	157
Figure 5.2: Progress has been made in reducing severe gender disparity, but girls still face difficulty getting into primary school in several countries.....	158
Figure 5.3: In most countries with high numbers of children out of school, the poorest girls continue to be most likely never to have attended.....	159
Figure 5.4: While girls are less likely to enrol in school, boys are more likely to leave early.....	160
Figure 5.5: While progress has been made, gender disparity in attaining a primary education is widest among the poorest children.....	161
Figure 5.6: Gender gaps in secondary education have improved, but remain wide in some regions.....	162
Figure 5.7: Gender disparities are perpetuated and widen throughout lower secondary.....	164
Figure 5.8: Since 1999, women's share of the primary teaching force has increased, and they make up a substantial proportion of new entrants in several countries.....	175
Figure 5.9: Although learning gender gaps are narrowing, boys outperform girls in mathematics, while girls increasingly outperform boys in reading, by a wider margin.....	182
Figure 5.10: In Pakistan, the disadvantage of girls in learning outcomes is underestimated if we consider only those children in school.....	183
Figure 6.1: Ghana reduced regional inequality while improving learning outcomes.....	190
Figure 6.2: Participation in national student assessments has grown sharply.....	191
Figure 6.3: In Pakistan, learning disparity is associated with geography.....	192
Figure 6.4: In Nicaragua, many schools are not teaching students basic mathematics in their early years.....	193
Figure 6.5: Some countries of Latin America reduced their urban-rural gap in reading proficiency between 2006 and 2013.....	194
Figure 6.6: Learning gaps between the most and least advantaged students narrowed in most PISA countries... ..	195
Figure 6.7: The number of pupils per teacher is decreasing but remains high in several countries.....	197
Figure 6.8: Sub-Saharan Africa has far more pupils per teacher than other regions.....	197
Figure 6.9: Trained teachers remain in short supply in many countries.....	199
Figure 6.10: In the 2000s, the share of community and contract teachers increased.....	201
Figure 6.11: Global annual intended instructional time has decreased since Dakar.....	205
Figure 6.12: Instructional time varies more in the early grades than in the upper grades.....	206

Figure 7.1: Goal 1 – Despite significant progress since 1999, participation in pre-primary education remains very limited in about one-fifth of countries in 2015	221
Figure 7.2: Goal 2 – While about half the countries with data remain at some distance or far from the target in 2015, there has been clear movement towards universal primary enrolment since 1999	223
Figure 7.3: Goal 2 – Universal access to and completion of primary school remains elusive, with only 13% of countries with data projected to reach the target by 2015	225
Figure 7.4: Goal 5 – While more than two-thirds of countries with data are likely to reach gender parity in primary education by 2015, less than half would do so at secondary level	227
Figure 7.5: Goal 5 – Gender parity has not been achieved, yet progress is encouraging	228
Figure 7.6: Most countries furthest from EFA made considerable progress since 1999	234
Figure 8.1: A majority of countries have increased education spending as a share of national income since 1999	245
Figure 8.2: Progress in the growth of real spending per primary school pupil was mixed	245
Figure 8.3: Only a few countries spent at least one-fifth of their budget on education	247
Figure 8.4: 37 countries increased expenditure on pre-primary education as a percentage of GNP, but the share remains small	249
Figure 8.5: Salaries represent a majority of funding in education budgets, particularly for primary education	251
Figure 8.6: The variation between budgets and spending is close to 10% or more in some countries	255
Figure 8.7: Some countries in sub-Saharan Africa are wasting a large share of their resources on repetition and dropout	256
Figure 8.8: Distribution of the benefits of public spending on education for the poorest has worsened in Congo and improved in Nepal	259
Figure 8.9: Households contribute a considerable share of total education expenditure, especially in poorer countries	260
Figure 8.10: 7 of the 15 largest donors to education reallocated education aid to post-secondary at the expense of basic education	263
Figure 8.11: Aid to EFA goals outside of primary education has failed to increase	264
Figure 8.12: Share of basic education aid for ECCE and basic life skills is minimal	265
Figure 8.13: Sub-Saharan Africa had the second slowest growth rate in aid disbursements to basic education	265
Figure 8.14: Aid per school age child varies widely among low income countries	266
Figure 8.15: The importance of aid to education has been declining for most countries	268
Figure 8.16: The GPE has better targeted the countries most in need over the past decade	271
Figure 8.17: The share of aid to education that reaches recipient countries is lower than in other sectors	273
Figure 8.18: Humanitarian funding to education peaked in 2010	275
Figure 8.19: Humanitarian aid is a key form of financing for many conflict-affected countries, but education's share falls short	276
Figure 9.1: The average annual financing gap for achieving key parts of the post-2015 agenda in low and lower middle income countries is US\$22 billion	297
Figure 9.2: Aid to education will stagnate in low income countries	297

Text boxes

Box 0.1. The Dakar EFA goals and strategies	2
Box 0.2. The potential of international actors to influence national education policy	29
Box 0.3: Goals and objectives of the Fast Track Initiative and Global Partnership for Education	31
Box 1.1: Parenting support for psychosocial development proves more beneficial than improved nutrition.....	53
Box 1.2: Countries have followed different paths to increase demand for and access to ECCE	54
Box 1.3: Peru's government day care: more and better training and support of staff are needed	56
Box 1.4: Colombia reaches many of its most vulnerable under-5s	57
Box 1.5: A multisector approach can address disability early and help both children and families	58
Box 1.6: Low cost private provision dominates in areas of sub-Saharan Africa.....	67
Box 1.7: Children and schools should be ready for each other	69
Box 1.8: Culture shapes assessment of indigenous education in Mexico	70
Box 1.9: China takes a planned approach to early childhood teacher development	72
Box 2.1: Private schooling in slums.....	100
Box 2.2: Challenges in defining 'inclusive education'	101
Box 2.3: Interpreting 'inclusive education' in Viet Nam	102
Box 2.4: Education in a situation of dramatic displacement: Syrian Arab Republic	104
Box 3.1: Contrasting approaches to south–south migrants in Ecuador and the Dominican Republic	119
Box 3.2: Rural–urban migration: The policy challenge to schooling and China's response.....	121
Box 3.3: Effects of soft skills, formal education, and technical skills on earnings in Colombia, Ghana and Sri Lanka	132
Box 4.1 Consistent definitions of literacy are needed for global comparisons.....	138
Box 4.2 Adult literacy campaigns and programmes often lack research on their effectiveness	147
Box 5.1: Multiple stakeholders support campaign to promote girls' education in Turkey	168
Box 5.2: Tackling child marriage in Ethiopia	169
Box 5.3: Greater efforts to implement policy on gender-sensitive training are needed in Cameroon.....	177
Box 5.4: Raising boys' achievement in reading in the United Kingdom	184
Box 6.1: PISA for Development	195
Box 6.2: The increase in private tutoring: What are the implications for policy-makers?.....	202
Box 6.3: Flexible school-based teacher training helped improve pedagogical practices in Kenya.....	209
Box 7.1: Ethiopia has made significant progress	236
Box 7.2: Haiti has made considerable progress.....	237
Box 8.1: Reducing corruption in the textbook sector in the Philippines.....	253
Box 8.2: Development impact bonds in education	278
Box 9.1: Open Working Group proposal for Sustainable Development Goals.....	284
Box 9.2: Proposed SDG education goals and targets.....	285
Box 9.3: A cost analysis for achieving the SDGs.....	295
