

THE LEAST DEVELOPED COUNTRIES REPORT 2016

The path to graduation and beyond: Making the most of the process

Contents

<i>What are the least developed countries</i>	iii
<i>Explanatory notes</i>	x
<i>Abbreviations</i>	xi
<i>Classifications used in this Report</i>	xiii
<i>Overview</i>	I-XIV

INTRODUCTION: Recent Economic Trends and Outlook for LDCs..... 1

A. Introduction	2
B. The real sector	2
C. Current account and international trade.....	4
1. Current account balance	4
2. Trade in goods and services	5
D. Resource mobilization	9
1. Domestic resource mobilization	9
2. Official capital flows	10
3. Foreign direct investment.....	10
4. Personal remittances	12
E. The economic outlook for least developed countries.....	12
Notes	14
References	14

CHAPTER 1: Graduation: A Milestone, Not the Winning Post..... 15

A. Introduction.....	16
B. The least developed country predicament, the rationale of the category and the significance of graduation	17
1. The rationale of the least developed country category	17
2. The poverty trap	18
3. The commodity-dependence trap	19
4. Balance-of-payments constraints to growth	25
5. The significance of graduation	27
C. The graduation process and criteria.....	27
D. The evolution of the least developed country list	30
E. The least developed country category: More relevant than ever	31
1. Economic divergence and the growing concentration of social deprivation	31
2. Divergence in productive capacities.....	33
3. The changing global economic environment for development.....	37
F. Graduating to what?	39
1. A milestone, not the winning-post	39
2. Graduation with momentum: The key role of productive capacities.....	41
3. The key role of inclusivity and gender	42

G. The economic and political calculus of graduation.....	44
1. The economic calculus.....	44
2. The political calculus.....	45
H. Summary	46
Notes.....	47
References	48
<hr/>	
CHAPTER 2: The National Dynamics of Graduation	51
<hr/>	
A. Introduction.....	52
B. Historical, current and future cases of graduation.....	52
C. The role of geographical factors in graduation performance	56
1. The landlocked developing country factor.....	56
2. The small island developing State factor	58
D. National processes leading to graduation	63
1. Strategies of the graduates to date.....	63
2. Strategies, plans and policies of current least developed countries	67
E. The least developed countries group in 2025: Implications of the UNCTAD projections	72
1. Geographical features	72
2. Output structure and income.....	72
3. Urbanization and the rural economy	74
4. Productivity and poverty	74
5. Financing for development	75
6. Major exports	75
7. Export concentration	76
8. Conclusions	77
F. Summary.....	77
Notes.....	79
References	80
<hr/>	
CHAPTER 3: The Contribution of International Support Measures to Graduation.....	83
<hr/>	
A. Introduction.....	84
B. International support measures - An overview	85
C. Finance-related international support measures	85
1. Volume of official development assistance	88
2. Official development assistance modalities	93
3. Climate finance.....	94
D. Trade-related international support measures.....	98
1. Accession to the World Trade Organization	99
2. Preferential market access.....	99
3. Other special and differential treatment	104
4. Trade-related technical assistance.....	106

E. Technology-related international support measures.....	109
1. Aid for science, technology and innovation	109
2. The Agreement on Trade-related Aspects of Intellectual Property Rights.....	110
3. Climate change-related technology transfer	112
4. The Technology Bank	113
F. The role of international support measures in past graduation cases.....	114
G. The utilization of international support measures by present least developed countries and their perceived usefulness	116
H. Conclusion.....	117
I. Summary	119
Notes.....	120
References	121

CHAPTER 4: Post-Graduation Processes and Challenges 125

A. Introduction.....	126
B. Smooth transition	126
C. Economic implications of graduation	129
1. External financing	129
2. Trade preferences.....	133
3. Special and differential treatment	140
4. Conclusion	140
D. Post-graduation challenges.....	141
1. Persistent commodity dependence	141
2. The risk of reversion	143
3. The middle-income trap	145
E. The post-graduation development paths of the past graduates	149
1. External debt	149
2. Official development assistance and foreign direct investment	150
3. Economic diversification policies.....	151
4. Poverty and inequality	152
F. Summary.....	153
Notes.....	154
References	156
Annex 1. Simulation of the effects of loss of trade preferences due to graduation: Methodology.....	159

CHAPTER 5: The Path to Graduation and Beyond..... 161

A. Introduction.....	162
B. Graduation with momentum	162
C. “Graduation-plus” strategies for graduation with momentum	164
1. Rural transformation	165
2. Industrial policy	166

3. Science, technology and innovation policy.....	167
4. Development finance.....	169
5. Macroeconomic policies.....	170
6. Employment generation.....	171
7. Gender.....	172
D. The international environment.....	173
E. International support measures.....	174
1. Development finance.....	174
2. Proposal: An LDC finance facilitation mechanism.....	177
3. Trade.....	178
4. Technology.....	180
F. Least developed country criteria.....	182
G. Summary.....	183
Notes.....	185
References.....	186

Boxes

1.1. A brief history of the LDC category.....	17
1.2. Evolution of the criteria for inclusion in, and graduation from, the LDC category.....	28
2.1. Methodology for the projection of LDC graduation until 2024.....	56
2.2. The MIRAB, PROFIT and SITE models for small island economies.....	61
3.1. Sectoral aid allocation in LDC graduates.....	92
3.2. An early assessment of the services waiver.....	104
4.1. The smooth transition experience of recent LDC graduates.....	128
4.2. The middle-income trap and LDCs' growth performance.....	146
5.1. UNCDF's MicroLead and MicroLead Expansion programmes.....	170

Figures

Intro.1. Evolution of commodity prices by type, 2000–2016.....	3
Intro.2. Current account balance of LDCs, 2000–2021.....	5
Intro.3. Current account balance as a percentage of GDP, 2015.....	6
Intro.4. Composition of LDCs' merchandise exports and imports, 2015.....	8
Intro.5. Net ODA disbursed for LDCs, 2006–2014.....	11
1.1. Primary commodities as share of merchandise exports, by commodity group, 2013–2015.....	21
1.2. Primary commodities as share of merchandise exports in LDCs.....	22
1.3. Primary commodity dependence and export concentration, 2012–2014.....	23
1.4. Current account balance of LDCs, by export category, 2000–2014.....	26
1.5. Number of LDCs by geographical group, 1971–2016.....	31
1.6. LDC and ODC GDP per capita as percentage of world average, 1981–2014.....	32
1.7. LDCs' share in world population, poverty and infrastructure shortfalls, 1980–2014.....	33
1.8. Tertiary education enrolment ratio, LDCs and ODCs, 1970–2013.....	34
1.9. Selected indicators of technological capabilities in LDCs and ODCs.....	35

1.10.	Per capita energy use, LDCs and ODCs, 1971–2013.....	35
1.11.	Access to financial services, LDCs and ODCs, 2011–2014 (latest).....	36
1.12.	ICT access, LDCs, ODCs and graduating countries, 2014.....	37
1.13.	ODA, trade, FDI and remittances as percentage of world GDP, 1960–2015	38
1.14.	Real ODA receipts per capita, LDCs and ODCs, 1960–2014	39
1.15.	LDC graduation and sustainable development.....	43
2.1.	Country groups: LDCs, LLDCs, SIDS and sub-Saharan African countries	57
2.2.	Gross national income per capita of LDCs and subgroups, 2013–2015	59
2.3.	Selected structural indicators of landlocked LDCs.....	59
2.4.	Selected structural indicators of SIDS LDCs.....	62
2.5.	Geographical features of the present and projected group of LDCs.....	73
2.6.	Export specialization of the present and projected group of LDCs.....	75
3.1.	ODA commitments and net disbursements to LDCs.....	89
3.2.	Net ODA received as share of recipient country's GNI.....	90
3.3.	Net ODA to LDCs from individual DAC member countries, 1992–2014 (selected years).....	91
3.4.	Net ODA to LDCs: Annual delivery gap vis-à-vis United Nations targets for DAC donors.....	93
3.5.	ODA commitments to LDCs by DAC donors, by aid type.....	94
3.6.	Global climate finance architecture diagram	96
3.7.	Quad imports originating from LDCs by tariff treatment, 2013.....	102
3.8.	Quad preference coverage and utilization rate, 2013.....	103
3.9.	Aid for Trade disbursements to LDCs by broad sector (all donors).....	107
3.10.	ODA gross disbursement for STI in LDCs and ODCs, 2002–2014.....	110
4.1.	Smooth transition procedures reporting by graduating and graduated countries and the CDP	127
4.2.	Composition of total official flows before and after LDC graduation.....	132
4.3.	Effects of preference losses related to LDC graduation vis-à-vis G20 countries	135
4.4.	Effects of preference losses related to LDC graduation by sector	138
4.5.	Commodity dependence and current account balance, 2012–2014.....	142
4.6.	Climate-related risks and potential for risk reduction.....	144
4.7.	External debt level of the graduated countries, index, graduation year = 100.....	149

Box figures

1.1.	Changes in LDC criteria over time	29
3.1.	Sectoral composition of aid disbursements, present LDC total and LDC graduates before graduation.....	92
4.1.	Distribution of current LDCs in terms of GDP per capita relative to the United States	148
4.2.	Real GDP per-capita growth, 1950–2010	148

Tables

Intro.1.	Real GDP growth rates in LDCs, other developing countries and developed countries, 2002–2017 ...	3
Intro.2.	LDC exports and imports of goods and services, 2005–2015, selected years	7
Intro.3.	Gross fixed capital formation, gross domestic savings and external resource gap in LDCs	9
Intro.4.	FDI inflows into LDCs, 2002–2015.....	11
Intro.5.	Remittances inflows to LDCs, 2002–2015, selected years.....	12

1.1. Median access to ICTs by country group, 2014	37
2.1. The history of graduation to date.....	53
2.2. Projected graduation cases, 2017–2024	54
2.3. Structural indicators of LDCs and ODCs, 2010–2015	73
2.4. Export concentration index of LDCs and ODCs, 1995–2015, selected years.....	76
3.1. Main international support measures in favour of LDCs.....	86
3.2. ODA from OECD DAC member countries to LDCs reported as untied.....	95
3.3. Aid for Trade to LDCs and other developing countries.....	108
4.1. LDCs' and LDC graduates' access to concessional windows, selected multilateral development banks, 2016	131
4.2. Overview of selected preferential market access schemes in favour of LDCs.....	134
4.3. Annual effects of preference losses extrapolated to all LDCs, by region	136
4.4. Performance of graduated countries, 2015 indicators	149
4.5. Net ODA receipts	150
4.6. Sectoral composition of gross value added, averages before and after graduation, selected countries.....	151
4.7. Export concentration index, ten years pre- and post-graduation.....	151
4.8. Poverty rates, Gini index and unemployment rate for the graduated countries, various years.....	152

Annex table

A.1. Counterfactuals used in the analysis.....	160
--	-----

Box tables

2.1. Classification of island economies according to the MIRAB and PROFIT-SITE models	61
4.1. Transition matrix across World Bank income categories, for LDC and LDC graduates	147

EXPLANATORY NOTES

The term “dollars” (\$) refers to United States dollars unless otherwise stated. The term “billion” signifies 1,000 million.

Annual rates of growth and changes refer to compound rates. Exports are valued f.o.b. (free on board) and imports c.i.f. (cost, insurance, freight) unless otherwise specified.

Use of a dash (–) between dates representing years, e.g. 1981–1990, signifies the full period involved, including the initial and final years. An oblique stroke (/) between two years, e.g. 1991/92, signifies a fiscal or crop year.

The term “least developed country” (LDC) refers, throughout this report, to a country included in the United Nations list of least developed countries.

In the tables:

Two dots (..) indicate that the data are not available, or are not separately reported.

One dot (.) indicates that the data are not applicable.

A hyphen (-) indicates that the amount is nil or negligible.

Details and percentages do not necessarily add up to totals, because of rounding.
